## **Houston Humane Society Rescues Dogs from Deplorable Conditions *Over 200 dogs are currently being seized in Northwest Houston***

**The Houston Humane Society's R.A.I.D.E.R. team is currently rescuing 200+ Chinese Crested and Chihuahua mixes from a private Houston residence.** For years the dogs have been living inside the residence in severely unclean and deplorable conditions. By all accounts, the owner started out as a breeder and at some point stopped selling the animals which continued to breed indiscriminately resulting in this out of control situation. Sgts. Guerra and Schuelke of Precinct 6 and the Houston Humane Society R.A.I.D.E.R. team executed a warrant this morning, and are currently seizing the animals. Animals will be brought to Houston Humane Society where medical evaluations will be conducted.

**Houston Humane Society needs help to handle the influx of 200+ animals.** Foster families are desperately needed to help care for some of our current pet residents to free up kennel space for the rescued dogs who need isolation and extensive veterinary care. Monetary donations are being sought to help cover the costly medical expenses and intensive care. People wanting to help are encouraged to visit [www.houstonhumane.org](http://www.houstonhumane.org) for a full list of needs which includes money, towels, and food.
